

Rule No.: 941 - 8301 - 00001

Agency: Mississippi Department of Transportation

Agency Effective Date: May 15, 2005

Agency Issued Date: March 8, 2005

Secretary of State Authority Date: May 15, 2005

Supercedes Rule:

Division: Roadway Design

Rule Title: Highway Design Standards

The person to be contacted regarding the proposed rule is: Facility and Records Management Director

Name of person originating the proposed rule: John Pickering - Roadway Design Division Engineer

Name of supervisor or person who approved the proposed rule: David Foster - Asst. Chief Engineer, Preconstruction

Purpose:

To ensure the plans for each proposed highway project will be designed in accordance with criteria best suited to serve the existing and future traffic of the highway in a safe, effective, cost efficient and environmentally sensitive manner.

Summary:

The Roadway Design Manual incorporates in one document safety criteria and design standards or references to such standards recommended for use in highway design.

The full text of the proposed rule is:

All cites herein refer to the most current version of the cited document.

The design of all highways and related facilities must conform to the design standards contained in the Department's Roadway Design Manual, as adopted by the Mississippi Transportation Commission, latest edition.

This policy is based on:

The most recent version of 23 USC 109, (c), as amended
