To: ALL POTENTIAL BIDDERS

Date: 04/22/2010

RE: Call No. 20, BWO-7132-16(001) / 502014301, BWO-7133-16(001) / 502014302, & BWO-7109-16(002) / 502014303 - Covington County

Bidders are hereby advised of the following to help clarify some questions regarding this contract.

1. The plywood in Section 06 10 00 is given in several different types and thicknesses, based on application. These apply unless otherwise shown on Drawings.
2. The segmented retaining wall is intended to retain the existing grade slope of approximately five feet maximum. It shall step down as the existing grade lowers. The circular portion of the retaining wall is intended to only need to retain approximately three feet of existing grade slope and be the same height its entire length.
3. The Grease Shield referred to in Section 11 31 15 is intended to be of same color and material as range / microwave. It shall firmly attached to wall between these appliances.
4. The Detectable Warnings (Truncated Domes) shown on A5.2, Sheet Number 19, shall be according to ADA requirements and as shown. There are several different types that are acceptable. Submit for approval prior to installation.
5. MDOT will prepare a building pad within one foot of finish floor. When the Contractor disturbs this pad with trenches, the Contractor shall be responsible for compaction of this material and using it to set finish grade for building slab and sidewalks. The Contractor shall also be responsible for finish grading to maintain positive slope away from building. After this Contract is complete, MDOT will place pavement material.

Your formal acknowledgment of receipt of this notification will be entered into our records and indicates your understanding of the above statements and you have bid accordingly.
