

SECTION 905 -- PROPOSAL (CONTINUED)

I (We) further propose to execute the attached contract agreement (Section 902) as soon as the work is awarded to me (us), and to begin and complete the work within the time limit(s) provided for in the Specifications and Advertisement. I (We) also propose to execute the attached contract bond (Section 903) in an amount not less than one hundred (100) percent of the total of my (our) part, but also to guarantee the excellence of both workmanship and materials until the work is finally accepted.

I (We) enclose a certified check, cashier's check or bid bond for **five percent (5%) of total bid** and hereby agree that in case of my (our) failure to execute the contract and furnish bond within Ten (10) days after notice of award, the amount of this check (bid bond) will be forfeited to the State of Mississippi as liquidated damages arising out of my (our) failure to execute the contract as proposed. It is understood that in case I am (we are) not awarded the work, the check will be returned as provided in the Specifications.

Bidder acknowledges receipt of and has added to and made a part of the proposal and contract documents the following addendum (addenda):

ADDENDUM NO. 1 DATED 8/15/2011 ADDENDUM NO. DATED

MISSISSIPPI DEPARTMENT OF TRANSPORTATION

SECTION 904- NOTICE TO BIDDERS NO. 3615

CODE: (SP)

DATE: 08/12/2011

SUBJECT: Silt Fence Reinforcement

PROJECT: BR-0921-00 (017)/ 103317302 – Marshall County

The Contractor is hereby advised that all temporary silt fence (234-A001) applications on this project will require wire backing. Standard Drawings in the plans show applications with or without wire backing; however, it will be a requirement to include wire backing on all applications and payment for the wire backing will be considered absorbed in the temporary silt fence pay item.

MISSISSIPPI DEPARTMENT OF TRANSPORTATION

SECTION 904- NOTICE TO BIDDERS NO. 3616

CODE: (SP)

DATE: 08/12/2011

SUBJECT: Detour Bridge Quantities

PROJECT: BR-0921-00 (017)/ 103317302 – Marshall County

The Contractor is hereby advised that the pay item for Construction and Removal of Detour Bridge shown in the plans is incorrect. Construction and Removal of the Detour Bridge will be paid using the following pay items which are not included on the plan summary of quantities, but are correct as shown on the bid sheets:

907-618-C Construction and Removal of Detour Bridge

907-618-E Detour Bridge Piling

907-618-F Detour Bridge Test Pile

The Detour Bridge must be designed based on LRFD and you should bid accordingly. Special provision 907-618-7 has been made a part of the contract.

MISSISSIPPI DEPARTMENT OF TRANSPORTATION

SPECIAL PROVISION NO. 907-618-7

CODE: (SP)

DATE: 03/08/2011

SUBJECT: Construction and Removal of Detour Bridges

Section 618, Maintenance of Traffic and Traffic Control Plan, of the 2004 Edition of the Mississippi Standard Specifications for Road and Bridge Construction is hereby amended as follows:

907-618.03--Construction Requirements. After Subsection 618.03.4 on page 417, add the following.

907-618.03.5--Detour Bridge. When specified on the plans, the Contractor will construct, maintain and remove all detour bridges as indicated in the plans and contract documents. This work shall consist of the design, furnishing of materials, construction, maintenance and removal of detour bridges as described herein.

Prior to beginning any work on the detour bridge, the Contractor shall provide the Project Engineer with a Project Management Plan which will include design drawings, calculations and other necessary supporting data used in the design of the detour bridge. The purpose of the Contractor's Project Management Plan is to provide sufficient information to adequately inform the Department of proposed project activities. The design data shall address all items of work and materials incorporated in the detour bridge. No official approval of the Project Management Plan will be given by MDOT. The design information is for informational purposes only. The design shall be prepared, stamped or sealed by a Professional Engineer registered in the State of Mississippi proficient in roadway and bridge design.

The plan shall include but not be limited to a complete set of detour bridge design drawings with calculations, minimum geometric and loading requirements, and all other requirements shown on detour bridge sheets in the plans.

After construction of the detour bridge and prior to opening it to the traveling public, the Contractor shall furnish the Engineer with a written certification from the Registered Professional Design Engineer that the bridge has been built in accordance with the Design Plans.

Detour bridge piling shall be installed in accordance with the details of the detour bridge design and resulting data from the test piles.

The Contractor shall install two out-of-place test piles at each detour bridge site; one near the end bent and one near the intermediate bent. The length of the test piles shall be determined by Contractor. Should a test pile be of insufficient length and the length cannot be extended, a new test pile will be driven. In this case, no additional payment will be made for driving an additional test pile, or extending a test pile.

907-618.04--Method of Measurement. Delete the fourth paragraph of Subsection 618.04 on page 417, and substitute the following.

Construction and removal of detour bridges, excluding test piles and piling, will be measured as a lump sum quantity, consisting of furnishing all labor and materials, construction, repair and replacement as deemed necessary during the life of the project.

Detour bridge piling, exclusive of those measured as test piles, will be measured by the linear foot. No measurement for payment will be made for cut-off of a detour bridge piling.

Detour bridge test piles will be measured as a lump sum quantity. Piles measured as test piles will not be included in the measurement of pay footage for permanent piles. No measurement for payment will be made for cut-off of a detour bridge test pile.

The removal of the detour bridge shall be as follows:

907-618.05--Basis of Payment. After the fourth paragraph of Subsection 618.05 on page 418, add the following:

Detour Bridge Piling, measured as prescribed above, will be paid for at the contract unit price per linear foot, which price shall be full compensation for furnishing all labor, materials, equipment, and incidentals necessary to complete the work.

Detour Bridge Test Pile, measured as prescribed above, will be paid for at the contract lump sum price, which price shall be full compensation for furnishing all labor, materials, equipment, and incidentals necessary to complete the work.

Delete the last pay item listed on page 418, and add the following:

907-618-C: Construction and Removal of Detour Bridge - lump sum

907-618-E: Detour Bridge Piling - per linear foot

907-618-F: Detour Bridge Test Pile - lump sum

Replace Bridge No. 18.3 on SR 349 south of Potts Camp, known as Federal Aid Project No. BR-0921-00(017) / 103317302, in Marshall County.

I (We) agree to complete the entire project within the specified contract time.

*** SPECIAL NOTICE TO BIDDERS ***

**BIDS WILL NOT BE CONSIDERED UNLESS BOTH UNIT PRICES AND ITEM TOTALS ARE ENTERED.
 BIDS WILL NOT BE CONSIDERED UNLESS THE BID CERTIFICATION LOCATED AT THE END OF THE BID SHEETS IS SIGNED**
