

Call 07 Widen and Overlay approximately 9 miles of SR 32 from the east end of the Tallahatchie River Bridge to SR 35, known as State Project No. MP-2032-68(006) / 304904301 in Tallahatchie County.

Q1. In looking at routes leading into and out of the project area, there are low weight restrictions on all bridges within the designated construction zone. Heavy equipment and trucks/trailers carrying asphalt cannot legally cross these bridges based on posted weight limits. Additionally, there will be some equipment required for use on this project, based on the scope of work, that themselves exceed these limits. Will there be any consideration with regards to enforcement of weight limits, access for equipment, on these bridges during construction of this project?

A1. Weight restrictions will not be enforced on bridges inside the project limits.
