

Call 03 Mill & Overlay approximately 5 miles of SR 7 from Marshall County Line to US 72, known as Federal Aid Project No. NH-0019-02(053) / 106986301 in Benton County.

Q1. Can you specify where the milling is going besides the 300 tons to Ashland and 500 to Holly Springs? Does MDOT get 50% of the milling if so where does it go? It also states up to 10000 tons and the job does not have that much milling on it. I take it that MDOT gets a total of 800 tons of milling and the contractor keeps the rest.

A1. MDOT wants 800 tons and the remainder will become the property of the Contractor.
