

**Call 08 Traffic Signal Upgrade at Intersection of Gluckstadt Road & Calhoun Station Parkway, known as State Project No. SP-6989-00(001) / 107156301 in Madison County**

Q1. On sheet TRS-1 Note 7 it states that "mounting hardware...shall be black in color." Does this mean that MsDOT wants traffic signal and sign astro brackets to be painted black as well?

A1. The mounting hardware doesn't have to be black but the visors, housing, signal poles, and mast arms shall be black in color. The mounting hardware/bracket shall be designed per the standard sheet TSD-6.
