

**Call 18 Mill & Overlay approximately 5 miles of SR 35 from Hesterville to Carroll CL,
known as State Project No. MP-2035-04(011) / 305880301 in Attala County.**

Q1. The required 7 day cover-up of the milled mainline generally requires multiple lane closures for simultaneous operations. Addendum 1 only provides enough Temporary Rumble Strip for one lane closure. Will the Department pay for additional Temporary Rumble Strip for multiple closures?

A1. A maximum of two (2) lane closure setups will be paid for.
