

Call 06 Bridge Repair on I-10 over Escatawpa River Bridge No. 75.5A, known as State Project No. SP-0010-01(156) / 107232301 in Jackson County.

Q1. It appears that the damage to the girder flange is in a location inaccessible prior to bid. Does MDOT have any photos, damage limit measurements or inspection reports that would help the Contractor prepare a bid for the amount of flame straightening effort required?

A1. Reference the below website:
