

**Call 01 Bridge Repair on I-59 Southbound over Clarke County Road 370, known as Federal Aid Project No. STP-0059-02(107) / 107467301 in Clarke County.**

Q1. NTB No. 2017 states that OCR-481 must be included with the bid proposal. How should we submit this form since bids are to be submitted by bid express service?

A1. The successful bidder will be required to turn in OCR-481 forms prior to Award of the project, see also NTB 6735 in the addendum to the project.

Q2. Notice to Bidders No. 6737 says that a pre-construction meeting will be held immediately after the bid opening. Since there isn't any meaningful work that can be done until the beams are ready, can we postpone that meeting a few days? If not, can the meeting be pushed back to mid-afternoon on the 5th? The bids are to be submitted electronically and that would give the low bidder time to make their way from their office to MDOT.

A2. See revised NTB 6737 in the addendum to the project.
