

Call 19 Bridge Jacking on Tank Road and Green Gable Road, known as Federal Aid Bridge No. BR-9999-05(032) / 107597301 in Hinds County.

Q1. Directional signs for detour has 2 additional signs under them. That's 9ft of signs on the post. What are your mounting ideas for these signs?

A1. Double channel posts are recommended to mount these signs. In order to get the proper vertical clearance, the Contractor will be allowed, for this project, to drive stubs to mount the channel posts.
