

**Call 01 Bridge Replacement on SR 32 (Bridge No. 7.1), known as Federal Aid Project No. BR-0006-01(091) / 106111301 in Bolivar County.**

Q1. Can MDOT provide the "As-Built" plans or the end bent pile lengths for existing Bridge 7.1?

A1. This information can be downloaded at the link below:

<https://file-exchange.mdot.state.ms.us/dl/?f=b24d4cfa6a9ffd95261298373afbe5d71f4593f7>

Q2. The pay item number for the concrete mat indicates there should be a special provision in the proposal (907-832-PP003). There is no special provision in the proposal for this pay item. Is this information available?

A2. There is no Special Provision since this is a Per Plans pay item. All information pertaining to this item can be found in the plans.

Q3. Due to the fast pace nature of this job. Would MDOT consider using riprap in lieu of the concrete mat? This would eliminate the delay in getting the concrete mat material.

A3. No.
