

**Call 02 Overlay on US 90 from Debuys Road to West end of Biloxi Bay Bridge, known as Federal Aid Project No. STP-0003-01(199) / 107749301 in Harrison County.**

- Q1. Note (L) under the scope of work states that the area from STA 1304+00 to 1398+00 could be excluded from this contract due to conflict with another contract. In this same note it is stated that the referenced stations line up with Seal Avenue and Main Street. Both of those descriptions of the area cannot be true. Main Street is at roughly STA 1341+00, and STA 1398+00 would be near Oak Street. Which location for the end of this section should be used, Main Street or STA 1398+00?
- A1. The intent of the scope of work is to define the area that could be omitted as being between the ramps of I-110 and Main Street. The beginning of the area will be determined based on field conditions at the time work commences, and would be between Benachi Avenue and Seal Avenue. The end of the area would be Main Street.
