

**SECTION 905 -- PROPOSAL (CONTINUED)**

I (We) hereby certify by digital signature and electronic submission via Bid Express of the Section 905 proposal below, that all certifications, disclosures and affidavits incorporated herein are deemed to be duly executed in the aggregate, fully enforceable and binding upon delivery of the bid proposal. I (We) further acknowledge that this certification shall not extend to the bid bond or alternate security which must be separately executed for the benefit of the Commission. This signature does not cure deficiencies in any required certifications, disclosures and/or affidavits. I (We) also acknowledge the right of the Commission to require full and final execution on any certification, disclosure or affidavit contained in the proposal at the Commission's election upon award. Failure to so execute at the Commission's request within the time allowed in the Standard Specifications for execution of all contract documents will result in forfeiture of the bid bond or alternate security.

Bidder acknowledges receipt of and has added to and made a part of the proposal and contract documents the following addendum (addenda):

ADDENDUM NO. <u>  1  </u>	DATED <u>  6/18/2019  </u>	ADDENDUM NO. _____	DATED _____

## SECTION 904-NOTICE TO BIDDERS NO. 1734

**DATE:** 6/18/2019

**SUBJECT:** Steel Fabrication Schedule

**PROJECT:** ER-0063-04(010) / 106793302 – Greene County

To ensure that MDOT is able to acquire a contract with its fabrication firm in a timely manner, a detailed schedule for the fabrication of structural steel from your Sub-Contractors shall be provided in writing no later than the preconstruction meeting. The provided schedules will be used by MDOT to establish the maximum contract amount as indicated in section 810.04.5 of the Standard Specifications. MDOT will be responsible for the cost not to exceed the maximum contract amount.

It is the responsibility of the Prime Contractor to make all structural steel fabrication Sub-Consultants aware that MDOT is not responsible for any additional costs associated with a change in the provided schedule and fabrication locations (including coating locations) that raise the maximum contract amount.

The schedule should include but is not limited to the following:

- Location where material will be fabricated (including coating locations)
- Project fabrication duration (including coatings)
- Project shipping durations
- Any projected breaks in the fabrication schedule
- Projected work schedule (days per week, hours per shift, shifts per day)
- The name and address of subcontractors involved in the fabrication
- The number of fabricated items

Steel fabrication shall not commence until MDOT has contracted with a steel fabrication inspection firm, all submittals are reviewed and stamped, a prefabrication meeting is held, and MDOT's fabrication inspection firm is on site.
