

**Call 11 Installation of a Traffic Signal on SR 43/603 at Texas Flat Road, known as Federal Aid Project No. STBG-0067-00(012) / 108152301 in Hancock County.**

Q1. The plans show loop detection for the advance detection for phases 2 & 6, however, there is not a pay item for a 640-C005 Loop Detector Amplifier, Card Rack, 4 Channel. Is this supposed to be included in the 643-A004 Video Detection System, Type 1A pay item?

A1. See addendum.
