

**Call 06 Mill & Overlay approximately 1.3 miles of SR 492 from Scott County Line to End of Bridges, known as Federal Aid Project No. STP-0437-00(029) / 107966301 in Newton County.**

Q1. Do you intend for the 6" milling to be done with a fine milling head? If so, it will need to be milled twice. We have not been able to cut deeper than 4" at a time.

A1. The 6" milling may be accomplished with either a coarse or fine milling head at the Contractor's option. However, the plan quantity is only calculated for one pass of milling. If multiple passes are required, it will only be paid once.
