

Call 01 Grade, Pave 2 Lanes of SR 19 from Tucker to Philadelphia, known as Federal Aid Project No. STP-0026-01(080) / 101649302 in Neshoba County.

Q1. Could you please share the soil profile for this job?

A1. The soil profile can be downloaded at the link below. Please note the original soil profile extends beyond the project limits.

<https://file-exchange.mdot.state.ms.us/dl/?f=d1f701b9f9bcfb56572b233600c47c87355643de>

Q2. The specified Borrow Excavation meeting B17 (0-12 PI) spec does not appear to be prevalent in the local region in its pure form. Our local investigations as well as the information shown in the soil borings shows the on-site unclassified material as well as locally obtainable material meets the B9 (0-20 PI) spec. Will the Department consider changing the Borrow Excavation B17 to Borrow Excavation B9? In our opinion, this could provide MDOT a great amount of value by being able to utilize this readily available material (B9).

A2. Bidders are advised to bid as per the plans.
