

Call 06 Bridge Preservation on SR 28 at the Leaf River (Bridge No. 116.3), known as Federal Aid Project No. BR-0013-03(028) / 107178301 in Smith County.

Q1. On sheet 8002 under the structural steel notes, it states that surfaces shall be cleaned per section 810 and 814. Can MDOT clarify if this is cleaning or painting with the 3 part system?

A1. The steel shall be weathering steel. The reference to cleaning is to ensure the surfaces of the steel are clean before any field welding takes place.
