- Q1. On the I-20 eastbound on ramp at the Brandon exit project it states that once the fill material has been installed the bucket of the excavator will be used to trench out for the underdrains. How will this be paid?
- A1. This shall be considered an absorbed item of work.
- Q2. It appears that plans for an upcoming job STBG-9999-05(381) SR 25/43 Interchange Slide Repair, Rankin County are accidentally included inside the Call 13 plan package. We procured our plans through Bidx. The EBSX file for Call 13 represents only the 4 sites noted on the cover page of the proposal. We identified the job in question inside the MDOT's proposed Letting schedule for this year(November Letting). Please advise.
- A2. Information regarding the STBG-9999-05(381) SR 25/43 Interchange Slide Repair project was inadvertently included in Bidx. The sheets that were included in error have been removed.
