

**Call 08 Overlay approximately 5 miles of SR 614 from SR 63 to SR 613, known as Federal Aid Project No. STP-2104-00(009) / 108238301 in Jackson County.**

Q1. The plans for this project states that the Undersealing is to inject around triple line of pipes located approximately 1700' east of the BOP (SR 63). Do you know the diameter of the pipes? The plans also state that we will be responsible for cleaning out any foam that might get into the pipes at no cost to the State. The size of the pipes will determine how we have to clean them out.

A1. It will be the responsibility of the Contractor to field verify the size of the pipes.

Q2. There is an amendment, but I cannot locate a Notice to Bidders. Could you please tell me where to locate it?

A2. Addendum 1 did not contain a Notice to Bidders. It only added revised Wage Rates.
