

Call 02 Bridge Replacement on SR 35 (Bridge No. 163.7), known as Federal Aid Project No. BR-0023-02(053) / 106105301 in Attala County.

- Q1. In regards to the guardrail estimated quantities, the estimated quantities show there being no temporary guardrail, however does show "DETOUR" using new guardrail. Temporary guardrail typically goes in these applications.
- A1. See addendum.
- Q2. We noticed in the design data for the detour bridges that the gutter to gutter is listed as 26'. The roadway is 24'. Would MDOT allow a 24' gutter to gutter detour bridge instead of 26'?
- A2. Bidders are advised to bid as per the plans.
- Q3. Typical detour requirement is 24'. Please confirm 24' wide detour construction is acceptable for this project.
- A3. See Answer #2.
