

SECTION 905 -- PROPOSAL (CONTINUED)

I (We) hereby certify by digital signature and electronic submission via Bid Express of the Section 905 proposal below, that all certifications, disclosures and affidavits incorporated herein are deemed to be duly executed in the aggregate, fully enforceable and binding upon delivery of the bid proposal. I (We) further acknowledge that this certification shall not extend to the bid bond or alternate security which must be separately executed for the benefit of the Commission. This signature does not cure deficiencies in any required certifications, disclosures and/or affidavits. I (We) also acknowledge the right of the Commission to require full and final execution on any certification, disclosure or affidavit contained in the proposal at the Commission's election upon award. Failure to so execute at the Commission's request within the time allowed in the Standard Specifications for execution of all contract documents will result in forfeiture of the bid bond or alternate security.

Bidder acknowledges receipt of and has added to and made a part of the proposal and contract documents the following addendum (addenda):

SECTION 904 - NOTICE TO BIDDERS NO. 5612

CODE: (SP)

DATE: 1/22/2024

SUBJECT: Haul Roads

PROJECT: BR-0535-00(028) / 102504301 - Neshoba County

Bidders are hereby advised of the following requirements regarding haul roads. Haul roads may be constructed only within the existing right-of-way and in areas approved by the Engineer. If the Contractor deems it necessary to clear areas within this area, the request shall be submitted to the Engineer and approved prior to commencing with clearing activities. The Contractor shall be responsible for construction of any temporary drainage structures required to provide adequate drainage. The Contractor shall ensure positive drainage along all haul routes; therefore, impoundment of surface water resulting from construction access is prohibited. Any modifications made to the roadway and/or its features shall be an absorbed item, the roadway and/or its features returned to their original condition, and shall be approved by the Engineer.

The Contractor shall be required to maintain erosion control within any disturbed areas on the project, as directed by the Engineer, and shall be an absorbed item of work.

Haul roads, temporary drainage structures, etc. shall be removed and areas restored to pre-project conditions once the intended use is complete and prior to completion of the project. All areas shall be graded, shaped to drain, and grassed prior to completion of the project, and shall be absorbed items.

If the Contractor elects to utilize storage areas outside of and adjacent to the existing right-of-way, then the Contractor shall be responsible for obtaining any easements, permits, right-of-entry, etc. from the property owner/responsible party for the storage area and any haul roads necessary to access the project site.

All costs associated with the construction and removal of haul roads shall be absorbed by the Contractor.
