

Call 04 Overlay approximately 5 miles of US 11 from I-59 to Fourth Street in Picayune, known as Federal Aid Project No. STBG-9602-00(003) / 108708301 in Pearl River County.

Q1. Which guard rail pads (location) are getting replaced, and will we mill them and install the 9.5MM ST mix for it?

A1. There is one bridge on the project (Bridge No. 1.4) over Alligator Creek, which is located approximately 850 feet south of Sam Mitchell Rd. There is no need to mill the existing pads. They will be overlaid with 9.5-mm ST.
