

MDOT Construction Plans (10-24-2012)

This document provides a brief overview of Construction Plans available in Projectwise and Printing information.

PLANS OVERVIEW

- **Final Plans Folder Structure**

Out to	Name	Category
	102556-310000-2012-09-18-Bridge.pdf	Bridge Plans
	102556-310000-2012-10-08-FinalPlans.pdf	Roadway Plans
	102556-310000-2012-09-18-FinalXS.pdf	Cross Sections
	Standards final.pdf	Standard Drawings

Current Plans w/revisions if any exist.

Initial 1st Order Printing

Revision

- * Contains only revised sheets.
- * Revisions may be 1st Order, Addendum, or 2nd Order as described below.
 - > 1st order - Revision prior to Advertisement
 - > Addendum - Revision after Addendum but prior to award
 - > 2nd Order - Revision after award.

- **Size of Plans**

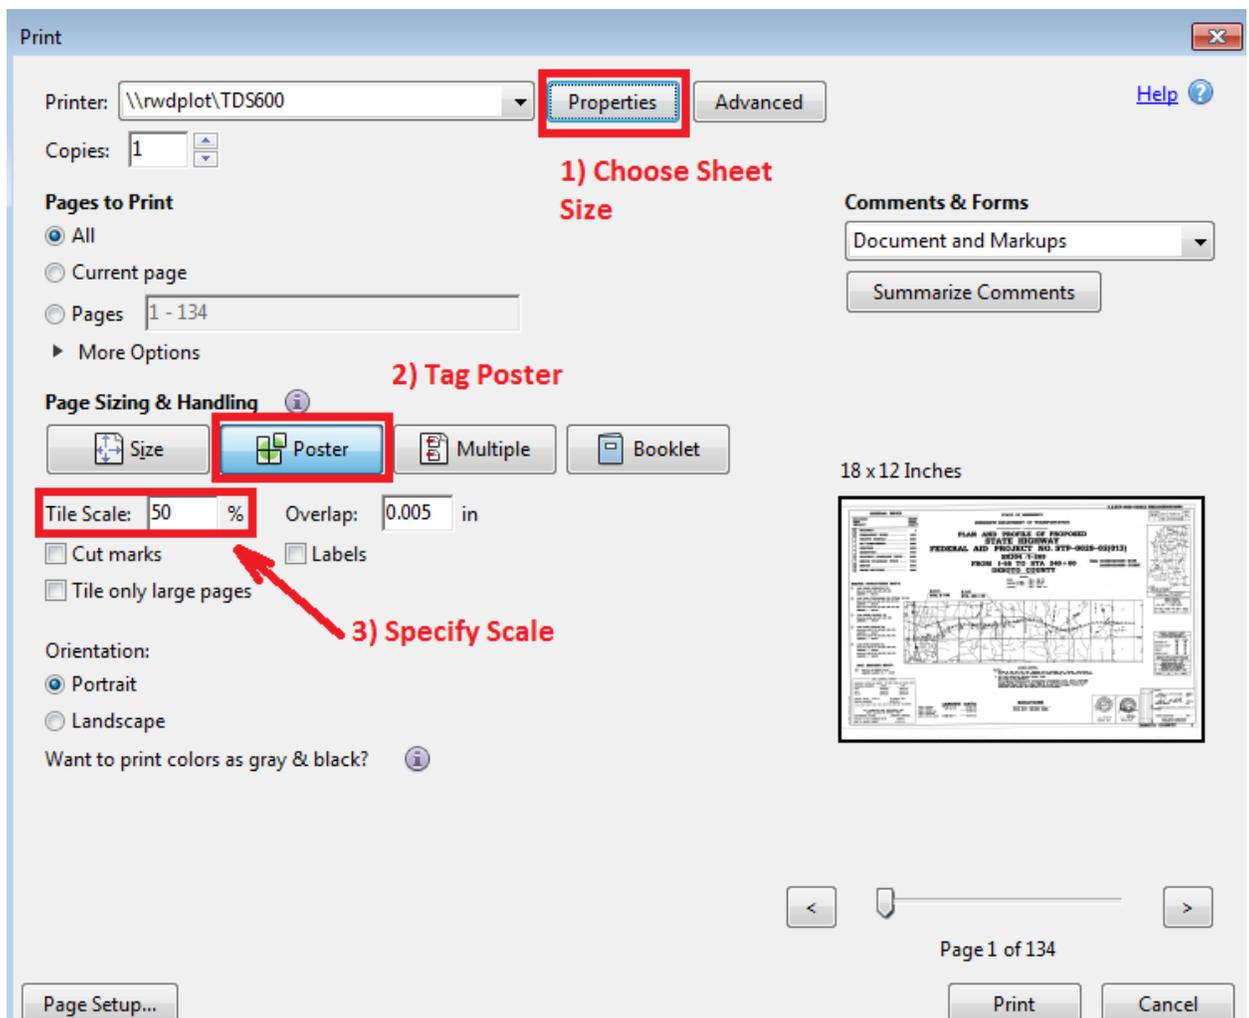

Plan Sheets will range in size from 22"x34.6" to 24"x36" with most Roadway sheets being 22"x34.6". The sheets with the larger size are generally scanned images.

These images will not fit on 11"x17" sheets at 50% scale. MDOT recommends 11.5"-12"x18" paper for true half scales.

PRINTING PLANS

- **Printing Half Scales with Adobe Acrobat (10.1.4)**

To print one page to one sheet with Adobe, it's required that you choose a paper size greater than or equal to the size of the page(s) being printed. Adobe will not "clip" page areas outside sheet areas. It will force the extra area onto another sheet. As noted above, MDOT plans will not fit as true half scale on 11"x17" paper. The printer chosen in the image below is capable of printing up to 12"x18" paper.

- **Printing to 11"x17" paper (Not to Scale) with Adobe Acrobat**

If you want to print sheets not to scale on 11"x17" paper, Adobe settings are shown below. Choose Properties and choose the sheet size 1st.
