Sealed Container Measurement Calculations

The maximum gross vehicle weight is determined by these measurements. Vehicles cannot exceed 42,000 lbs on a tandem axle.

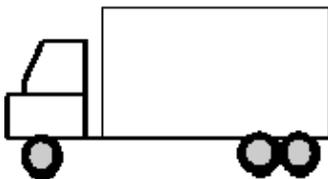

Maximum gross vehicle weight with maximum tandem axle weight of 42, 000 lbs.

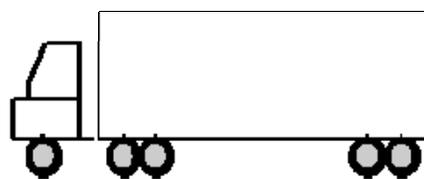

Length:	Outer bridge Min. (ft.)	Inter bridge Min. (ft.)	Gross Vehicle Weight Max (lbs.)
	51	39	95,000
	49	37	94,500
	47	35	92,000
	45	33	90,000
	43	31	85,500
	41	29	79,500
	39	27	74,400
	37	25	70,800
	35	23	68,200
	33	21	65,700
	31	19	63,000
	29	17	59,900
	27	15	57,900
	25	13	56,600

Above loads may cross bridges posted at, or above, one or a combination of the following postings listed below.
