

Bridge Design Memorandum

To: Bridge Design

From: NJA/sww

Date: 2/15/2012

Re: Shop Drawings

As per NJA and JMW, all final shop drawings including, but not limited to, prestress beams, sign trusses, detour bridges, structural steel, shoring plans, voided slabs, and finger joints shall be scanned before distribution. This is to ensure Bridge Division has an electronic copy of all shop drawings.
