

# Bridge Design Memorandum

---

**To:** Bridge Design  
**From:** NJA/sww  
**Date:** 7/19/2013  
**Re:** Drilled Shaft & Column Reinforcing

---

As per NJA and JMW, the following note shall be used on all projects with drilled shafts and columns.

**NOTE:** When reinforcing steel projects from the drilled shaft into the column, the reinforcing steel will be included in the cost of the drilled shaft. When reinforcing steel projects from the column into the drilled shaft, the reinforcing steel will be included in the cost of the reinforcement.

This note is to make sure reinforcing quantities are calculated correctly and to help prevent contractor claims.
