

Join the Federal Highway Administration and MDOT LTAP Center for a presentation on **Geosynthetic Reinforced Soil-Integrated Bridge System (GRS-IBS)** via a live webinar with local discussions on **September 15, 2015** from 1:00 p.m. to 3:00 p.m. **This webinar is “FREE.”**

**Description** – The majority of the bridges across the nation are small, single-span bridges commonly on rural and local roads. As the infrastructure ages, weight restrictions or bridge closures are becoming more frequent. With limited resources available, transportation agencies must find innovative, cost-effective solutions for bridge construction. **The Geosynthetic Reinforced Soil-Integrated Bridge System (GRS-IBS)** may be an excellent alternative to help reduce bridge construction time and cost! The webinar will also provide a brief overview of FHWA guidance on scour evaluation and countermeasure design as well as how scour can be successfully addressed when using GRS-IBS.

**Registration Form (Please Print or Type)**

Agency or District Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Phone: \_\_\_\_\_ Fax: \_\_\_\_\_

Person Completing this Form: \_\_\_\_\_

Title: \_\_\_\_\_

E-Mail \_\_\_\_\_

**PERSONS YOU ARE REGISTERING TO ATTEND:**

(1) Name: \_\_\_\_\_

Position/Title: \_\_\_\_\_

Email: \_\_\_\_\_

(2) Name: \_\_\_\_\_

Position/Title: \_\_\_\_\_

Email: \_\_\_\_\_

(3) Name: \_\_\_\_\_
