

Road Drainage

Description – Roadway Drainage involves the collection, conveyance, removal and disposal of surface water runoff from the traveled way, shoulders and adjoining roadside areas. This course will cover how to configure highway drainage systems and implement procedures for highway drainage design including evaluation of gutter and roadside swale flow, determining grate and inlet capacities and overall sizing of storm water conveyance systems.

Registration Information – Registration can be completed online at: www.mdot.ms.gov/ltap/ or by completing the information below and submitting this form to the LTAP Team via email at ltap@mdot.ms.gov . **Registration is \$35. Lunch is not provided.** Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

Who Should Attend? Individuals who are involved in planning and execution of maintenance work on asphalt pavement including Public Works Director and employees, Street Supervisors, Highway Superintendents, Road Managers and Crew Foreman.

Instructor: Mr. Robert Hearn, P.E.

Time: 8:00 a.m. – 4:00 p.m.
