

Traffic Calming

Description – Traffic Calming introduces an engineering tool whose primary purposes include addressing speed concerns and/or cut-through traffic on residential streets and enhancing opportunities for non-motorized street users. This course is designed for non-engineer and provides information that can help municipalities establish a rational traffic calming program for their roadways in addition to detailing specific traffic calming devices. It defines traffic calming, describes various traffic calming devices, outlines potential positive and negative impacts on a neighborhood and reviews a sample traffic calming program. It also investigates related issues, such as impacts of traffic calming devices on liability, roadway maintenance and emergency service.

Registration Information – Registration can be completed online at: www.mdot.ms.gov/ltap/ or by completing the information below and submitting this form to the LTAP Team via email at ltap@mdot.ms.gov . **Registration is \$35. Lunch is provided.** Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

Who Should Attend? This program is designed for any state and local personnel who receive complaints about speeding and cut-through traffic and want to respond appropriately to address these problems including: Public Works Directors, Highway Superintendents, Road Foremen, Town Planners, Law Enforcement Personnel, Municipal Managers and Elected Officials.

Instructor: Mr. Dan Ismart, FHWA

Time: 8:00 a.m. – 4:00 p.m.
