

Safe Routes to Schools (SRSP) Supplemental Information

Applicant/LPA: _____

Student Information *(If more than one school, attach a separate copy for each school. Include the name of the school on each copy.)*

School Name: _____

Number of students enrolled by grade (ex. K—54): K- _____ 1- _____ 2- _____ 3- _____ 4- _____ 5- _____

6- _____ 7- _____ 8- _____ 9- _____ 10- _____ 11- _____ 12- _____

Total number of students at this school: _____

Number of students receiving free or reduced lunch: _____ % of total: _____

Number of students living within a half-mile radius of the school: _____ % of total: _____

Number of students who live within a half-mile to one-mile radius of the school: _____ % of total: _____

Number of students who live within a one-mile to two-mile radius of the school: _____ % of total: _____

For the following questions, please use the Student Travel Tally Sheet found in Appendix C or at [National Center for Safe Routes to School: Evaluation -- Student In-Class Travel Tally](#).

Number of students currently walking to and from school by grade: _____

Number of students currently bicycling to and from school by grade: _____

How many of these students wear a helmet? _____

Number of students arriving to school in a private vehicle: _____ On a school bus: _____

Number of crashes involving student(s) walking and bicycling to or from school in the last 3 years: _____

If bussing is provided, are students living within a one-mile radius of the school allowed to ride the busses (hazard bussing)? _____

Does your school or school district have a policy regarding students walking/bicycling to school? _____

If yes, what is that policy? _____

Additional Attachments:

In addition to the other required TAP application attachments, please plot the addresses of students attending the school (s) above. Include as a part of the map designation for a ½-mile radius around the school, a one-mile radius around the school, and a 2-mile radius around the school. Submit with other required attachments.

Current School Travel and Parent Perception

Complete the [Student Travel Tally Sheet](#) for each class and the [Parent Survey](#) for each school listed in this application. Click [SRSP data collection tools and instructions](#) for instructions on completing these forms and to access the forms. Completed surveys and tallies may be mailed to the National Center for Safe Routes to School where the data will be put into the data system and made available to you within approximately 4 weeks.

Include the results from the parent surveys and student tallies in your supporting material. This data is your baseline data. This data should be used to plan the routes for improvements and the noninfrastructure activities that will increase the number of children walking and bicycling safely to school while addressing parent concerns. For example, if the results from the parent survey show that one issue affecting parents' decision to allow or not allow their children to walk and bicycle to school is the speed of traffic along the route, then you will want to plan for infrastructure improvements that slow traffic like narrowing the roadway, AND you will want to plan to work with local law enforcement to change traffic behavior along those routes and to educate children on pedestrian safety.
