MISSISSIPPI DEPARTMENT OF TRANSPORTATION

Mississippi Bicycle Laws

House Bill No. 591 was passed by the 1982 Mississippi Legislature and signed into law by the Governor. This bill, which became effective July 1, 1982, requires that all bicycles be equipped with a brake which will enable the operator to make the braked wheel skid on dry, level, clean pavement. Section 63-3-403 was amended to allow certain restrictions or persons riding bicycles on highways. Local authorities may prohibit the operation of bicycles on any highway except on paths or parts of roadways set aside for the exclusive use of bicycles. Whenever such a path is provided and its use is mandatory, no bicycle shall be driven on any other part of the roadway. Bicycles are not allowed on any interstate highway in the state.

Section 63-3-405 was amended to require that all bicycles be operated on the right half of the roadway, except when overtaking and passing another bicycle or vehicle proceeding in the same direction, when preparing for a left turn at an intersection or into a private road or driveway, when reasonably necessary to avoid conditions including fixed or moving objects, parked or moving vehicles, bicycles, pedestrians, animals, surface hazards or narrow lanes, or when the right half of a roadway is unsafe for use due to the accumulation of debris or water. Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles. This section also applies to the driver of a motor vehicle except those provisions which by their nature can have no application.

INDEX TO MISSISSIPPI COUNTIES, CITIES AND TOWNS

Cities and towns are listed alphabetically. Counties are listed alphabetically in parentheses.
