

Call 03 Bridge Replacement on SR 178 over East Branch Lockes Creek (Bridge No. 55.3), known as Federal Aid Project No. STP-2906-00(005) / 106088301 in Union County.

Q1. Would MDOT provide the as-built plans to the existing bridge?

A1. The plans and standards for the existing bridge can be downloaded at the following link:
<https://file-exchange.mdot.state.ms.us/dl/?f=6b65d070a09b2a8a4eff9614073e8e4ca20bc85d>

Q2. Will the PDA monitoring be done by MDOT or is the Contractor responsible for hiring a third party?

A2. The Department, or a representative of the Department, will be responsible for PDA monitoring of the test pile(s).

Q3. Phase 1 of the Traffic Control Plan requires the clearing and grubbing of the project and the installation of the test piles. The fill material required for the abutments is not allowed until Phase 2 of the Traffic Control Plan. Will MDOT allow the 18" test pile in the abutment to be driven prior to the fill being placed?

A3. Yes.
