

**Call 15 Mill & Overlay approximately 10 miles of SR 145 from the Clarke County Line to I-59, known as State Project No. MP-5145-38(001) / 308841301 in Lauderdale County.**

Q1. Can a table be added to show the spot milled/inlayed by fine milling 1 1/2" and inlaying using 12.5mm ST from the BOP to Station 274+00.

A1. See addendum.

Q2. What method, that is to be absorbed in other items, to remove the existing thermoplastic pavement markings prior to the scrub seal will meet the approval of the Engineer?

A2. Any method that will not cause damage, gouging, marring, etc. to the asphalt pavement will be allowed. If at any time the asphalt pavement suffers damage due to the removal method used by the Contractor, then the removal shall be discontinued, and a new method shall be used.
