

Call 01 Emergency Removal & Replacement of existing pipe located on SR 26, known as State Project No. SP-0028-01(051) / 109625301 in Pearl River County.

- Q1. Are there any cross-sections for the area we are working in? What are the project limits? Do they have a typical section for this area? Is there any control? The plan sheet provided appears to be from an older project. Will they have an alignment for this project?
- A1. Due to the time restraints of the immediate need for this emergency repair, plan sheets were not developed. However, cross-sections, control, and alignment will be provided to the successful bidder. The typical section shall be as listed in the Scope of Work. The project limits are 100 feet each side of the existing pipe.
