

**Call 12 Overlay approximately 8 miles of SR 531 from SR 28 to CR 99, known as State Project No. SP-0335-00(012) / 109470301 in Smith County.**

- Q1. Third paragraph page 78 of the proposal mentions asphalt surface will be placed on guardrail pads. This project does not have bridge approaches as such but does have guardrail next to the roadway. Will any work be required at these guardrail locations (asphalt) outside of placing GR delineators on them.
- A1. Asphalt will need to be placed on the guardrail pad in order to match the grade of the top lift of asphalt placed on the mainline.
