

Call 09 Remove and Replace OGFC on approximately 20 miles of I-59 from North of Rocky Creek to the Jasper County Line, known as Federal Aid Project No. IM-0059-02(118) / 109251301 in Jones County.

Q1. Do any of the ramps get milled and paved? If so, what are the limits? What is the width of the OGFC on the mainline?

A1. The OGFC mainline lanes are 14' each. At the ramps, there is a 12' tie in OGFC lift that follows mainline that will be milled and paved also. No other work on the ramps is included in the project.

Q2. Will a daytime shoulder closure be allowed between exits 90 and 99 for random clearing operations?

A2. Yes.
