

Call 02 Intersection Improvements on US 49 at SR 35, known as Federal Aid Project No. HSIP-0008-02(117) / 108247301 in Covington County.

Q1. 626.03.3 Retroreflectivity Requirements Will retroreflectivity measurements be required on this project?

A1. No.

Q2. Pole Supplier is asking if the 80 & 90' arm can be straight arms. Plans call for Upswept Mast Arms, but due to length of arms supplier is saying they need to be straight.

A2. Straight mast arms will be accepted if the pole manufacturer cannot fabricate all mast arms as upswept. All mast arms at the intersection should be fabricated with the same design (straight or upswept).

Q3. Will a single lane closure be allowed on US 49 in each direction at the same time for HFST operations? I do not see a pay item for the HFST training. Is HFST Training a requirement on this project?

A3. **1.)** Yes. See addendum. **2.)** See addendum.
