

Call 17 Overlay approximately 3.3 miles of SR 42 from Simpson County Line to New Hebron, known as State Project No. MP-7042-39(002) / 307908301 in Lawrence County.

Q1. The base failure locations do not indicate which direction/lane the failures are in. Can the lane/direction of travel be shown for these locations?

A1. See Addendum 1.

Q2. Under Pay Item 201-D001 Random Clearing, are the overhanging limbs that extend over the roadway to be trimmed back if the base of said trees are located off the MDOT right-of-way? If so, what height are they to be trimmed?

A2. Overhanging limbs that originate from trees off ROW should be trimmed to a clear height of 30 feet.
