

Call 09 Bridge Repairs on Old US 11 over I-59 (Bridge No. 47.9) & Richburg Road over I-59 (Bridge Nos. 61.9A, & 61.9B), known as Federal Aid Project No. STBG-9999-06(405) / 109670301 in Lamar County.

Q1. Can MDOT please provide as-built drawings for each structure?

A1. They can be downloaded at the following link: <https://file-exchange.mdot.state.ms.us/dl/?f=8cdb4e9ff59327657d777322698b8eeef3ad396>

Q2. Can MDOT please provide bearing details and a bearing replacement layout for each structure?

A2. See Addendum 1.

Q3. Will the bridges be closed to traffic individually for the installation of the PCSS?

A3. **Revised Answer:** ~~No. There will be standard one-lane closures for the installation of the PCSS.~~ See Addendum 3.

Q4. Can MDOT please provide details on FRP Wrap layout for each bridge?

A4. See Addendum 1.

Q5. Will the bridges be closed to traffic individually for the installation of the PCSS?

A5. See Addendum 3.

Q6. The PCSS operation needs a minimum of 16' wide working space. That only leaves 8' of travel lane. Would MDOT reconsider closing the bridges for this scope of work?

A6. See Addendum 3.
