

**SECTION 905 -- PROPOSAL (CONTINUED)**

I (We) hereby certify by digital signature and electronic submission via Bid Express of the Section 905 proposal below, that all certifications, disclosures and affidavits incorporated herein are deemed to be duly executed in the aggregate, fully enforceable and binding upon delivery of the bid proposal. I (We) further acknowledge that this certification shall not extend to the bid bond or alternate security which must be separately executed for the benefit of the Commission. This signature does not cure deficiencies in any required certifications, disclosures and/or affidavits. I (We) also acknowledge the right of the Commission to require full and final execution on any certification, disclosure or affidavit contained in the proposal at the Commission's election upon award. Failure to so execute at the Commission's request within the time allowed in the Standard Specifications for execution of all contract documents will result in forfeiture of the bid bond or alternate security.

Bidder acknowledges receipt of and has added to and made a part of the proposal and contract documents the following addendum (addenda):

## MISSISSIPPI DEPARTMENT OF TRANSPORTATION

**SECTION 904 - NOTICE TO BIDDERS NO. 2**

**CODE: (IS)**

**DATE: 03/01/2017**

**SUBJECT: Status of Right-of-Way**

Although it is desirable to have acquired all rights-of-way and completed all railroad agreements, utility adjustments and work to be performed by others prior to receiving bids, sometimes it is not considered to be in the public interest to wait until each and every such clearance has been obtained. The bidder is hereby advised of possible unacquired rights-of-way, relocations, railroad agreements and utilities adjustments which have not been completed.

The status of right-of-way acquisition, utility adjustments, encroachments, potentially contaminated sites, railroad facilities, improvements, and asbestos contamination are set forth in the following attachments.

In the event right of entry is not available to ALL parcels of right-of-way and/or all work that is to be accomplished by others on the date set forth in the contract for the Notice to Proceed is not complete, the Department will issue a restricted Notice to Proceed.

**STATUS OF RIGHT-OF-WAY**

STBG-0010-01(180)

109171/301000

Jackson County

All rights of way and legal rights of entry have been acquired. **except:**

Please refer to the Improvement Status Report for improvements that are to be removed by the contractor as well as coordination that will be required with regard to utilities that service the improvements.

The improvements shown on the IMPROVEMENT STATUS REPORT as Guard Shed and Covered Picnic Sheds, of which there are 14, are restricted for removal until September 1, 2026, pending MDOT Testing for Asbestos Containing Materials (ACM's).

The improvement shown as Jackson County Welcome Center has been tested and no Asbestos Containing Materials are present.

Power to the buildings is provided by Singing River Electric and a water well and sewer treatment plant are located on site that provide services as well. Coordination will be required prior to the removal of the improvements.

# MISSISSIPPI DEPARTMENT OF TRANSPORTATION

## *Inter-Departmental Memorandum*

TO: Don Drake  
Right of Way Division

DATE: January 30, 2026

FROM: Martha Brewer   
District Preconstruction Engineer

SUBJECT OR PROJECT NO: STBG-0010-01(180)  
109171/30100

INFORMATION COPY TO:  
File

COUNTY: Jackson

### District Status Report

1. **STATUS OF RIGHT OF WAY:** All work to be done within existing ROW.
2. **RIGHT OF WAY CLEARANCE:** There are no encroachments.
3. **STATUS OF AFFECTED RAILROAD OPERATING FACILITIES:** None affected.
4. **STATUS OF REQUIRED UTILITY RELOCATIONS:** No known conflicts.
5. **STATUS OF CONSTRUCTION AGREEMENT:** None Required

STATUS OF POTENTIALLY CONTAMINATED SITES REPORT

STBG-0010-01(180) 109171-301000

Jackson County

April 20, 2026

THERE IS NO RIGHT-OF-WAY REQUIRED FOR THIS PROJECT. NO INITIAL SITE ASSESSMENT WILL BE PERFORMED. IF CONTAMINATION ON THE EXISTING RIGHT-OF-WAY IS DISCOVERED, IT WILL BE HANDLED BY THE DEPARTMENT.

ASBESTOS ABATEMENT STATUS REPORT

STBG-0010-01(180) 109171-301000

Jackson County

April 20, 2026

Reference is made to notices to bidders entitled "Asbestos National Emission Standards for Hazardous Air Pollutants (NESHAP)" and "Removal of Obstructions".

The following pertinent information is furnished concerning asbestos-containing materials (ACMs), if any, found in buildings to be removed by the Contractor.

There is no right-of-way required for this project. However, the improvements shown in the IMPROVEMENT STATUS REPORT are to be removed by the contractor. The improvement listed as Jackson County Welcome Center has been inspected, and no ACMs were identified. The improvements shown as the guard shed and fourteen (14) covered picnic sheds are pending inspection for ACMS.

IMPROVEMENTS STATUS REPORT

Improvements to be included in Notice to Bidders to be removed by the Construction Contractor.

FMS Construction Project No: 109171-301000

External ROW No: STBG-0010-01(180)

Station No: N/A

Property Owner: State of Mississippi

Description/Pictures: Jackson County Welcome Center

Property Owner: State of Mississippi

Description/Pictures: Guard Shed

Property Owner: State of Mississippi

Description/Pictures: 14 Covered Picnic sheds

Power to the buildings is provided by Singing River Electric and a water well and sewer treatment plant are located on site that provide services as well. Coordination will be required prior to the removal of the improvements.

**MISSISSIPPI DEPARTMENT OF TRANSPORTATION**

**SECTION 904 - NOTICE TO BIDDERS NO. 7696**

**CODE: (SP)**

**DATE: 4/22/2026**

**SUBJECT: Restricted Areas**

**PROJECT: STBG-0010-01(080) / 109171301 – Jackson County**

Bidders are hereby advised that construction operations for the Guard Shed and Covered Picnic Sheds, of which there are 14, are restricted until **September 1, 2026** due to pending MDOT Testing for Asbestos Containing Materials (ACM's). Work may only commence in these areas before this date with written approval by the Engineer.

# MISSISSIPPI DEPARTMENT OF TRANSPORTATION

**SPECIAL PROVISION NO. 907-106-5**

**CODE: (IS)**

**DATE: 4/20/2026**

**SUBJECT: Control of Materials**

Section 106, Control of Materials, of the 2017 Edition of the Mississippi Standard Specifications for Road and Bridge Construction is hereby amended as follows.

After Subsection 106.13 on page 47, add the following:

**907-106.14--Buy America/Build America. Buy America (BABA) Materials Sourcing Requirements for Federal-Aid Projects.**

The "Infrastructure Investment and Jobs Act" (the "Act"), or Bipartisan Infrastructure Law (BIL), was enacted on November 15, 2021 (See Public Law No. 117-58, Sections 70901-70953). The [Buy America, Buy America \(BABA\)](#) provisions of the Act expand the previous Buy America requirements beyond what was currently required for steel and iron products.

Articles, materials, or supplies will only be classified under one of the following categories: iron or steel products, construction materials, manufactured products, or excluded materials (as further described in subsection 907-700.01.1). An article, material, or supply shall not be considered to fall under multiple categories. The applicable classification of the article, material, or supply being permanently incorporated into a construction project will be based on the status at the time the article, material, or supply is brought to the project work site.

Any iron or steel products, construction materials, and manufactured products that are permanently incorporated into a construction project, shall be domestically manufactured and compliant with current requirements of the Act, including 2 CFR 184, 2 CFR 200.322, OMB 24-02 Memo and related requirements therein, and with the current requirements within 23 CFR 635.410.

It is the prime Contractor's responsibility to ensure all submittals and/or certifications required by the above listed [Buy America/BABA](#) provisions are submitted to the Project Engineer prior to the article, material, or supply being incorporated into the work.

[Buy America/BABA](#) provisions do not apply to temporarily used articles, materials, or supplies that:

(1) are specified to be removed at the end of the project per the contract provisions, or (2) are specified to remain in place per the contract provisions and are also documented by the Department in the contract provisions to be removed in a subsequent imminent, near-term phased project.

The following categories, as described above, require Domestic Materials Self-Certification Form (as described within Subsection 907-700.01.2) on construction projects:

Iron or Steel Products  
Construction Materials  
Manufactured Products.

Buy America/[BABA](#) provisions do not apply to excluded materials.

A non-exclusive list of items that must comply with the above listed Buy America/[BABA](#) requirements and require the submittal of the Buy America Domestic Materials Self-Certification Form may be viewed at [www.goMDOT.com](http://www.goMDOT.com) under Business Center → Engineering Standards/Guides/Manuals → Construction Materials.

The list of items referenced above is not all-inclusive. All iron or steel products, construction material, and manufactured products permanently incorporated into the project shall comply with the applicable Buy America/Build America (BABA) requirements, regardless of whether such items are specifically Identified.

# MISSISSIPPI DEPARTMENT OF TRANSPORTATION

## SUPPLEMENT TO SPECIAL PROVISION NO. 907-242-14

**DATE:** 04/23/2026

**PROJECT:** STBG-0010-01(180) / 109171301 – Jackson County

Delete the first paragraph of Section 907-242-14 and substitute the following.

The following specifications are to be used only for the construction of the building structures and associated systems at the Jackson County Welcome Center. The Mississippi Standard Specifications for Road and Bridge Construction shall be used for all other items of work. Notwithstanding any language contained herein, this Special Provision shall not modify or supersede any applicable federal requirements including but not limited to FHWA's Buy America Requirements under 23 U.S.C. 313 and 23 CFR 635.410, or the Build America, Buy America (BABA) requirements pursuant to Pub. L. No. 117-58, div. G §§ 70901–70927.

## MISSISSIPPI DEPARTMENT OF TRANSPORTATION

SPECIAL PROVISION NO. 907-700-3

CODE: (IS)

DATE: 4/20/2026

SUBJECT: **Materials and Tests**

Section 700, Materials and Tests, of the 2017 Edition of the Mississippi Standard Specifications for Road and Bridge Construction is hereby amended as follows.

Delete fourth, fifth, sixth, and seventh paragraph of Subsection 700.01 on page 713, and add the following.

### **907-700.01.1--Buy America/Build America. Buy America (BABA) Requirements.**

Iron or Steel Products. Iron or steel or wire products (including prestressed cables and strands) are products that consist wholly or predominantly of iron or steel or a combination of both.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of the iron and steel components.

Iron or steel or wire products, as described above, that are permanently incorporated into a construction project must be produced domestically. All manufacturing processes for iron or steel or wire products, from the initial melting stage through the application of coatings, that are permanently incorporated into a construction project, must occur domestically. However, pig iron and processed, pelletized, and reduced iron ore manufactured outside of the United States may be used in the domestic manufacturing process for iron and/or steel and/or wire products. Coating includes all processes that protect or enhance the value of the material to which the coating is applied.

Construction Materials. Construction materials are articles, materials, or supplies that consist of only one of the items listed (non-ferrous metals, plastic and polymer-based products, glass, fiber-optic cables (including drop cables), optical fibers, lumber, drywall, and engineered woods). Minor additions of articles, materials, supplies, or binding agents to a construction material do not change the categorization of the construction material. All manufacturing processes for the listed construction materials, from the initial processes as described within 2 CFR 184.6 to the final processes as described within 2 CFR 184.6, that are permanently incorporated into a construction project, must occur domestically.

Manufactured Products. Manufactured products are articles, materials, or supplies that have been processed into a specific form or shape; or when combined with other articles, materials, or supplies create a product with different properties than the individual articles, materials, or supplies. An item that is classified as an iron or steel product, a construction material, or an excluded material is not a manufactured product. However, an article, material, or supply classified as a manufactured product

may include components that are iron or steel products, excluded materials, or other product categories as specified by law or in [2 CFR part 184](#). Mixtures of excluded materials delivered to a work site without final form for incorporation into a project are not a manufactured product. For construction projects obligated on or after October 1, 2025, the manufactured product must be manufactured domestically. For construction projects obligated on or after October 1, 2026, the manufactured product must be manufactured domestically and the cost of the components of the manufactured product that are mined, produced, or manufactured domestically is greater than 55 percent of the total cost of all components of the manufactured product.

**Excluded Materials.** Excluded materials, as listed in Section 70917(c) of the Build America, Buy America (**BABA**) Act, are cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives. However, an article, material, or supply classified as a manufactured product may include components that are iron or steel products, excluded materials, or other product categories as specified by law or in 2 CFR part 184. Mixtures of excluded materials delivered to a work site without final form for incorporation into a project are not a manufactured product.

Domestically shall be understood to mean all States of the United States, District of Columbia, Puerto Rico, American Samoa, Guam, and Virgin Islands and any other place subject to the jurisdiction of the United States.

**907-700.01.2—Certificate of Compliance Requirements.** Prior to incorporation into the work, the Contractor shall furnish the Project Engineer with a Domestic Materials Self-Certification Form documenting conformance to the requirements of Subsection 907-106.14. Attached hereto is the Domestic Materials Self-Certification Form that shall be furnished by the Contractor to the Project Engineer.
