

Call 10 Overlay approximately 11.2 miles on MS 550 from the Jefferson County Line to east of Bouie Mill Road, known as Project No. MP-7550-43(011) / 307907301 in Lincoln County.

Q1. With the scope of work requiring the random clearing cannot start until all asphalt items are completed, we feel this will result in scrapes, indentions, and possible damage to the new ultra-thin surface due to the equipment and trucks needed to perform this random clearing along with the dropping, handling, and the removal of the trees and limbs. What will be the criteria to identify this potential damage to repair and what methods of repair will be anticipated for these damaged areas?

A1. See Addendum 1.
