

Call 03 Roundabout on US 51 at Green T Road, known as Federal Aid Project No. STBG-7889-00(002) / 109064301 in Desoto County.

Q1. Would the Department share the CAD file(s) (Existing surface and proposed surface) so that we may calculate a cut/fill report?

A1. The successful bidder will be provided with these upon award. Additionally, CADD models are now accessible for download to all individuals who have purchased a Request to Bid Proposal. Instructions are available at the following link:

<https://file-exchange.mdot.state.ms.us/dl/?f=964d4c5f719f80ee9069f087b39f6f37988a1d85>

Q2. Can the temporary light fixtures be substituted with an equal to fixture instead of the ones listed on sheet 4008?

A2. Substitutions for temporary light fixtures will be considered.

Q3. Can 24" & 36" steel casing be utilized in lieu of RCP CV for items 603-CA038 & 603-CA065 if the contractor submits design calculations stamped by a registered professional engineer with the following criteria considered: pH, Resistivity, Corrosion, Wall Thickness, Dead and Live Loads?

A3. See Addendum 1.

Q4. Will the temporary lighting have to be installed at the very beginning of the project?

A4. As per Sheet 110 in the plans, the "Temporary lighting shown in the plans will be operational prior to implementing Phase 3 traffic pattern."
