

Call 07 Overlay and OGFC Lift from east of the Shorecrest Road Overpass to approximately 0.9 mile west of the D'Iberville Boulevard overpass and from approximately 0.9 mile west of D'Iberville Boulevard overpass to the Harrison/Jackson County Line, known as Federal Aid Project Nos. IM-0010-01(187) / 110062301 and IM-0010-01(188) / 110063301 in Harrison County.

Q1. Is there a set of plans I can purchase or download for letting No.7?

A1. This project does not include an official set of construction plans other than drawings included in the Proposal document.

Q2. For the Clearing limits. I just want to clarify that it is 70' from edge of pavement and not from edge of travel lane?

A2. 70' from the edge of the paved shoulder.

Q3. **1.)** Due to the nature of the work associated with the random clearing, will the lane closure restrictions as set forth in the proposal apply for the random clearing scope of work? **2.)** Please provide the anticipated location for the concrete pier protection, will it be close to the road or close to the bridge columns? Will the top of the footer be flush with existing ground? We are trying to understand the intent so that the absorbed site work can be adequately captured.

A3. **1.)** Clearing operations can be done during daytime hours but with only shoulder closures allowed. **2.)** Pier protection is to be 10' or greater from the columns. Top of footing is to be at natural ground level.
