

SECTION 905 -- PROPOSAL (CONTINUED)

I (We) hereby certify by digital signature and electronic submission via Bid Express of the Section 905 proposal below, that all certifications, disclosures and affidavits incorporated herein are deemed to be duly executed in the aggregate, fully enforceable and binding upon delivery of the bid proposal. I (We) further acknowledge that this certification shall not extend to the bid bond or alternate security which must be separately executed for the benefit of the Commission. This signature does not cure deficiencies in any required certifications, disclosures and/or affidavits. I (We) also acknowledge the right of the Commission to require full and final execution on any certification, disclosure or affidavit contained in the proposal at the Commission's election upon award. Failure to so execute at the Commission's request within the time allowed in the Standard Specifications for execution of all contract documents will result in forfeiture of the bid bond or alternate security.

Bidder acknowledges receipt of and has added to and made a part of the proposal and contract documents the following addendum (addenda):

SECTION 904 - NOTICE TO BIDDERS NO. 8239

CODE: (SP)

DATE: 07/23/2026

SUBJECT: Demolition and Erection Plan

PROJECT: STBG-0091-01(009) / 108865301 – Yazoo County

Bidders are hereby advised that the Contractor shall hire a Mississippi Licensed Professional Engineer to develop demolition and erection plans. The Contractor's Licensed Professional Engineer will develop an engineered bridge demolition plan that shall include, but not be limited to, all means and methods of deconstructing the bridge. The Contractor's Licensed Professional Engineer that develops the bridge demolition plans shall be present during demolition activities or may designate another Licensed Professional Engineer from the same engineering firm to be his or her field representative provided that that this representative has been involved with the development of the demolition plan. This substitution should be noted in the Contractor's demolition plan submittal.

The Contractor's Mississippi Licensed Professional Engineer shall also develop an engineered bridge erection plan. The Contractor's Licensed Professional Engineer shall inspect and certify any and all erection falsework used in the construction of the new bridge has been installed as per the erection plans prior to any girder installation.

Bidders are further advised of the following when preparing their Demolition and Erection Plans:

- Existing prestressed concrete beam spans 13-15 have two cantilever type spans and a suspended type middle span. Removal of these spans will require special considerations in order to maintain stability and safety during demolition of the structure.
- Both the demolition and erection plans shall be in conformance with Notice to Bidders No. 8164.
