

Call 10 Thin Lift Overlay approximately 10.2 miles of MS 467 from beginning of maintenance to South of Edwards, known as State Project No. SP-1441-00(008) / 110008301 in Hinds County.

Q1. In the scope of work, it mentions "Traffic will NOT be allowed to travel on the milled surface". It's Understandable for the milling of the local roads, but does this include the BOP, EOP and Bridge Ends at 1" Thickness?

A1. See Addendum 1.

Q2. Confirm the random clearing distance is to be 40' from centerline and 30' high as stated in the written scope of work on page 113 of proposal in lieu of the illustration shown on page 132 of proposal.

A2. 40' from centerline and 30' high is correct.
