UNAUTHORIZED ACCESS

MDOT is committed to ensuring the integrity of the information and systems it maintains. As such, MDOT has instituted security measures for all information systems under our control so that information will not be lost, misused, or altered.

For site security purposes and to ensure that this service remains available to all users, this government computer system employs software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage. By using this site, you are agreeing to such security monitoring. If such monitoring reveals evidence of possible abuse or criminal activity, the evidence may be provided to appropriate law enforcement officials. Unauthorized attempts to upload or change information on this service are strictly prohibited and may be punishable by law, including the Computer Fraud and Abuse Act of 1986 and the National Information Infrastructure Protection Act. For additional details about our security policies, please visit our Privacy Policy page. Commercial users are subject to different terms of use and are instructed to contact the MDOT Chief Information Officer for our commercial access policies.

ACCESSIBILITY POLICY

MDOT is committed to inclusion and universal access in all of its services and programs. We pledge to develop and maintain the MDOT Web pages and services so that they are accessible to persons with all types of abilities.

We are committed to providing the public, including individuals with disabilities, access to its web-based information and services. This site is designed for view in most Internet browsers and browser versions in order to reach the widest audience possible. The pages have been tested in

popular screen readers to help assure accessibility. However, since the MDOT Web Portal provides links to many websites that are not created or maintained by MDOT, it is possible that a site reached through our site would not be accessible to persons with disabilities.

With the guidance of the State, we are making progress toward this commitment. We are continually monitoring pages on our site and making necessary modifications to remove accessibility obstacles.

OWNERSHIP

In general, information presented on this web site, unless otherwise indicated, is considered in the public domain. It may be distributed or copied as permitted by law. The use, duplication, or redistribution of such material should be accompanied by appropriate attribution, where feasible (e.g., "Source: Mississippi Department of Transportation, www.mdot.ms.gov"). However, MDOT does make use of copyrighted data (e.g., photographs) which may require additional permissions prior to your use. In addition, any copyrighted work that consists predominantly of material produced by MDOT must provide notice identifying such material. Fraudulent or deceptive use of any MDOT material is strictly prohibited, and, except where expressly authorized, no endorsement or affiliation of MDOT or Mississippi Transportation Commission, or the State of Mississippi, shall be stated or implied. State law prohibits the misuse of the seal or logo of any department or agency of the State of Mississippi, including the seals of the MDOT and the Commission. In addition, MDOT is unable to grant or deny permission for any materials that may be posted on its website containing work copyrighted in whole or part by third parties. Such material, with or without copyright markings, may occasionally be found in or included with public comments and filings, incorporated as photos or other graphics in MDOT webpages or other materials prepared by our vendors, contractors, agents, and others. In order to use any information on this web site not owned or created by the State, you must seek permission directly from the owning (or holding) sources. The State shall have the unlimited right to use for any purpose, free of any charge, all information submitted via this site except those submissions made under separate legal contract. The State shall be free to use, for any purpose, any ideas, concepts, or techniques contained in information provided through this site.

LINKING POLICY AND DISCLAIMER

The MDOT Web Portal contains links to many other state agencies and public sector resources. In a few cases, we link to private organizations (such as Google and Facebook), with their permission. These links are provided for your convenience. MDOT does not control or guarantee the accuracy, relevance, timeliness, or completeness of any information or privacy policies posted on the sites to which we link. Once you link to another site, you are subject to the terms of service and use, as well as the privacy policy of the new site. Further, links to particular items in hypertext do not reflect their importance and should not be considered an endorsement of the organizations sponsoring the sites, the views expressed on the sites, or the products or services offered on the sites. For additional details about our linking policies, please visit our linking policy at our privacy policy page.

MDOT does not authorize or prohibit links to our website, as long as they do not connote an endorsement by – or affiliation with – the MDOT, the Commission or the State of Mississippi. Federal and state law and policy require MDOT to be neutral and objective; as a result, the agency does not link to commercial organizations or interest groups unless we determine that such links are appropriate and necessary to carry out authorized MDOT functions. We review our website periodically for broken or out-of-date links; links may be posted, altered, or removed at any time. To report problems with links on our site, or for more information about these terms of use, please contact comments@gomdot.com (link sends e-mail).
