

Addendum No. 1 – Construction Engineering and Inspection (CE&I) Services
IDIQ Master Contract 2026

Date: August 19, 2025

County: Statewide

Project Description: Provide construction engineering, inspection, and testing services –
Statewide.

Date Legal Advertisement Issued: August 13, 2025

From: Stephen Rone – MDOT Director of Consultant Services

Statement of modifications:

The purpose of this addendum is to make the following changes:

- 1. The following paragraph on page 19 in Part 3 of the RFP, shall be amended as stated below:**

“The CONSULTANT will provide construction engineering, inspection, and testing services on statewide projects including but not limited to bridge replacement projects, bridge repair/preservation projects, overlay projects, safety projects, slide repair projects, operation/intersection improvement projects, **building construction projects**, and other related transportation projects. While this IDIQ Master Contract will primarily consist of providing construction engineering, inspection, testing and related services, additional services may also apply. In summary, this Contract may include any or all the following services:”

This Addendum is effective this date and shall be used in the selection of any firms interested in submitting proposals for this Project.
