

UNSECURED LOADS are the cause of almost
25,000 WRECKS
LOADS EACH YEAR

resulting in about
80 DEATHS

Here are a few tips to help secure your load:

Put lightweight items at the bottom of the load.

Tie large items directly to the vehicle or trailer.

Tie down items with rope, bungee cords or straps.

Cover your load with sturdy reinforced plastic or canvas tarp.

Brush and debris should not overhang the vehicle or drag the ground.

Don't overload: keep material level with the top of the truck bed or trailer.

Always double check your load and be aware of it while driving.
